

# REMOVE IT

WE CLEAN IT UP, WE TAKE IT OUT!

## Sanitation Services

Due to the COVID-19 pandemic Remove It has added additional sanitation services and equipment. We are now offering disinfectant misting and fogging with disinfectants approved for killing COVID-19, these approved products can be found on EPA List-N. With everything starting to open back up it is more important than ever to effectively disinfect spaces to help prevent any spread of COVID-19 in clients, patrons and employees.

### Applications

Both misting and fogging can be performed in various spaces with different functions and sizes. These processes provide a more complete and extensive application of disinfectant on surfaces, providing more effective disinfection of spaces.

### Benefits of fogging or misting

*in conjunction with regular cleaning and following CDC Guidelines for reducing transmission in the workplace*

- More complete even coverage of surfaces with disinfectant
- Total space disinfection, including floors, not just high use touch points
- Disinfection with EPA approved disinfectants (List-N). Safety data sheets and EPA numbers provided.

### Areas, buildings and things that can benefit from these services

- Police Departments
- Fire Stations
- Ambulances
- Manufacturing Plants
- Locker Rooms

### Pricing

Pricing is based on square footage and space layout. Please contact us for general pricing. We can provide a preliminary quote if you provide us with information about your space: square footage, use/function, pictures of the space etc. We can also come out and give you a quote at your convince. There are discounts available for disinfecting large areas and with the purchase of multiple treatment packages.

Call or email for more information and see what we can do for you!
